AYER'S CHERRY PECTORAL. Colds, Coughs and Hoarse-

BRIMFISLD, MASS, 20th Dec., 1855. DR. J. C. Aven: I do not heatate to say he best r medy I have ever found for Coughs, Hoarse ess, Liften a, and the encomitant symptoms of a Cord, is your Cheray Pectoral. It constant use in CHERRY PECTORAL. It constant use in my practice and my family for the last ten years has shown it to possess suserior virtues for the treatment of these complaints.

KBEN KNIGHT, M. D. A. R. MORTLEY, Esq., of Urica, N. Y , writes: "I have used your Pactoral myself a d in my femily ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five do lars for a bottle than do without it, or ake any other remedy."

Croup, Hooping Cough, Influenza. SPRINGPIELD, MISS., Feb. 7, 1856.

PROTHER AVER: I will cheerfully certify your PROTORAL is the best remedy we postess for the cure of Whooping Cough, Croup, and the chest disease of children. We of your fraternity in the South appreciate your skill, and ommand) our medicine to our people. HIRAM CONKLIN, M. D. AMUS LEE, Fro . MONTERRY, IA., writes, 8d Jan., 1856; "I had a tedious is finer as, which confine one in doors gix weeks; took many medicines without relief; enally tried your PECTORAL by the giving of our clergyman. The first dose relieved the screness in my throat and lungs; less than one half the bottle m do me completely well. Your edicines are the chespest as well as the test we can bu, and we este m you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis. WEST MANCHESTER, PA , Feb. 4, 1856. Sin: Your Cherat Pactoral is performing marvellous cures in this section. It has relieved several from alarming syn ptoms of consumption, and is now curing a man who has labored under an affection of the in ngs for the last forty years. HENRY L. PARKS, Merchant. A. A. HAMSEY, M. D., ALBION, Monroe county, Iowa, writes, Sept. 6, 1855; "During my practice of m ny years I have found nothing equal to your Cheary Protonal for giving case and retief to consumptive patients, or curing

uch as are curable. Consumption. Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no cured so many and such dangerous cases as this. Some no human aidcan reach but even to those the Chenar Pactonal affords relief and con fort.

AST IR Hocas, New York City, March 5, 1856.

Toctor Ayes, Lowast: I fee it a duty and a pleasure to inform you what your Chenar Pactonal has done for my aife. She had been five months laboring under the dan gero a symptoms of consumption, from which no aid we could procure gave fier much relief. She was stendily lating, Lit | Dr. Strong, of this cits, where we have come for atvice, recommended a trial of your medicine. We bless s, recommende a trial of your medicine. We bless his kindness, as we do your skill, for she has recovere from that day. She is not yet as along as she used to be, but is free from her cough, and calls herself well.

Persons of Consumptive Habits, Read This! TO THE GRÆPENEURG COMPANY : For the first time

in my life am induced to certify to the truly wonderful effects of a popular medicine, but in sending you the
certificate I feel that I am only discharging a duty that I
owe to the Grafenberg Company, and more especially to At out the first of June last I had a negro man taken with a Cough, attended with restlessness, spitting of blood and other dangerous symptoms of consumption. I immediately called in a truly skiful and scientific physician, distributed in a truly skiful and scientific physician, diately called in a truly skillul and accenting povalitan, who told me it was a case of consumption. He treated him for several weeks, but he gradually grew worse. I then had another physician of great reputation in 1 mg di cases. He examined him, and a so decided it to be a hopeless care of consumption, and said it was useless to spend money in trying to cure him.

cons mption, and said it was useless to spend money in trying to cure him.

I had previously promised the Græ'enberg Agents here,
(Messrs Wells & I owell.) that when the doctors gave him
up I would try the Græ'enberg Comsumptive's Balm. I did
so and to my agreeable surprice, the man began to improve
after taking only five or six doses. He took only two bottles
of the Balm and three bottles of the Græfenberg Sarsapar I
ia Compoind, which cost me the small sum of nine dollars,
and today I consider him entirely cired. He is worth
at 200, and he is doing me good service on the plantation.
I consider him perfectly sound and we has he is fat, hearty
and strong, without a vestige or sign of disease left.

THE GREATEST INVENTION OF THE AGE. West's Patent Galvanic Cement For Roofing.

THE subscriber is now prepared to cover roofs of buildings, with a new and better article than ever before known. The public are aware that our Government has had scientific men experimenting, and that it has been the study of Archivects and Builders, for years, to discover an article for roofing purposes, that would stand the sudden changes of the weather, and be impervious to fire aniwater, and remain a permanent fixture. As yet, nothing has been attained without corting more than the people wish. The contraction, expansion and rusting of metal roofs, are so great in changeable climates, that they become usele's, unless being repaired at great expense yearly. Shingles are not fire proof, and cannot be used on flat roofs, and the various Compositions and Cements that have been brought into use for roofing, do not stand the action of the weather, but they run when it is warm, and crack when frosty, and after one or two years become crumbly, and worthless; whereas, the inventor of the Galvanic Cement, has labored twenty years to combine articles to obviate those difficulties, and can testify from his long experience, and numerous te timonials from reliable persons, who have had his combination applied to their buildings that his Cement is the cheanest and best atteler lorg experience, and numerous te-timonials from reliable persons, who have had his combination applied to their buildings, that his Cement is the cheapest and best aticler ever before known. The combination of this Ce nent is such that it is calculated for entire new roofs, flat or steep, covering over old shingles without removing them; lining eavestroughs, seaming around battlements, chimneys and sky-lights. Covering car-tops, steamer-decks, &c. This Cement, by its non-conduction and galvanism, prevents metal roofs from rusting and unsoldering, and resists the extremes of heat and cold, better than any thing ever invented, for entire roofs or for covering metal and the out side of wood buildings, making them fire proof. Its appearance is like slate; beautiful for the rich palace or the humble cottage. umble cottage. the undersigned having secured the right to the State of The undersigned having secured the right to the State of Tennessee, will sell rights of Territory, by Counties or

Towns, on reasonable terms.

The subscriber is also prepared to cover roofs of buildings, in any part of the State, at thort notice.

This Roof is now being put on in this city, for the benefit of all concerned, and warranted to excel all other modes of Roofing. The subscriber has had his mode of Roofing tested as to its qualities, during the last year and a haif in the city of Merphis, which has proved satis actory, to which a number of the nost prominent citizens can testify.

W. S. BENNETT, Proprietor.

Attached is a note from John L. Morgan, Esq., Archi-tect, by which may be seen the opinion of Mr. Samuel Sloan, the c-lebrated Architect, and writer upon Architec-ture, whose experience with this mode of roofing, without

a doubt, is satisfactory to all. MR. W. S. BENNETT.-When in Philadelphia, Pa., a few MR. W. S. BENNETT.—When in Philadelphia, Ta., and days ago, I called upon Mr. Samuel Sloan, the celebrated Architect, and author of the Sloan Work on Architecture. I asked his opinion as to the ourability. Sc., of West's Patent Roof, such as you are using in the city of Memphis. and he told me that he had no hesitation in saying to me that it is a good and durable roof, and is all that its advo-cates clain it to be; farther saying that he is using it on a fine building for himself. Respectfully.

W. F. BENNETT, Feq.—Dear Sir.—The facts within our knowledge of the durability, &c., of West's Galvanic Cement; are these: The building you covered for us last spring, I am happy to state has any ered our expectations. We can therefore recommend it to the public for all roof-ing purposes; as a light, cheap, fire and water proof roof. It does not get soft and run from the effects of the heat of the sun; nor does it harden and crack from the effects of ticle, can call at our manufactory.

MR BENNETT, Dear Sir: Our company having been troubled very much with leaky cars, put some of your Patent Paint upon them, and so far as my knowledge extends, I can cheerfully recommend it to any who wish a dry roof of any sort.

H. COFFIN, Superintendent. MEMPHIS, TENN., Jan. 14, 1857.

To THE PULLIC.-W. S. Bennett, made application to us last summer to cover our buildings with West's Galvanic Cement; it being a new thing, we thought we would try it: had it applied to our Blacksmith Shop, and Engine House, attached to the Foundry. They have proved all required of a water proof roof, having withstood some of the great-est storms, and are giving good satisfaction. We can only add, try it and you will be satisfied.

CURTIS & KNAPP, Iron Founders. MEMPHIS, Jan. 14, 1857

Mr. Bennett, has done some small amount of roofing for me in his peculiar way, with Cotton stuff, coated with a preparation the basis of which appears to be a Coal Tar. It is a very effectual and light roof, and appears to promise considerable durability, from the preservative qualities of the composition, which penetrates the cloth and protects it from the influence of the air and water. The Composition do-s not liquify and run from the effects of the heat of the sun in sammer; nor does it harden and crack from the influence in the cold of winter.

PATENT ELASTIC FIRE & WATER-PROOF CEMENT ROOFING. THE undersigned is prepared to introduce into use in Tennessee W. E. CHILDS & CO.'S PATENT ILAS-TIC FIRE AND WATER-PROOF CEMENT ROOFING, and

ask the attention of Architects, Builders, Railroad Com-ARCHITECTS AND BUILDERS should not fail to examine this Roofing, as it is better and cheaper than any thing in use. The material forms a hard and smooth surface that will resist the action of the atmosphere in every face that will resist the action of the atmosphere in every climate. It is impervious to water, elastic, and flexible. It contracts and expands with the changes of the atmosphere, and will neither evaporate, crack nor rot; and, as to its durability, there is no question.

It is practically imperishable, and will perfectfully resist any ordinary external exposure to fire, as is abundantly proved, and we will warrant it water-proof. We will enproved, and we will warrant it water-proof. We will engage to put our Roofing on over ordinary good sheathing, old shingles, tar and gravel, tin, sinc, copper, or iron roofs—it making no difference how steep or flat they may be—for seven dollars per one hundred square feet; it being far cheaper than any Roof of the old style, and we are sure it will give better satisfaction.

It will also be found to be the best thing ever invented to over or mend old leaky tio, tar and gravel roofs, or around

It will also be found to be the best thing ever invented to sover or mend old leaky tio, tar and gravel roofs, or around chimneys, scuttles, dormar windows, and gutters, where the tin is rusted through. This Gement can be put on to last as long as stone, and form a perfect adhesion to any object to which it is applied. Tin Roofs can be painted over (and warranted not to leak) at two dollars and fifty cents per hundred square feet, which is cheaper and much better than paint. This Roofing will be found to be the best theng for covering large koofs where they are exposed to fir—such as Steam Mills, Saw Mills, Factories, Railroad Cars, Bridges, Depots, Station Houses, Steamboat Decks, and, in fact, every kind of Roof where there is an external exposure from fire. As the Roof is perfect, without a joint nit, it presents no chance for fire to communicate, and any ight substance will burn out without igniting.

Insurance Offices at Cincinnati, and other places shere Childs & Co.'s Cement has been used, insure Buildings with Roofs covered with this Cement, at the same rates as for those covered with Iron, Copper or Tin.

The Cement will be furnished to those at a distance with directions for using.
